We enjoy advanced technology and noticeable expertise in the field of resin production. It is required to note that Hormoz Star Petro-refining, one of our subset companies, started its activity in producing different types of alkyd resin. Continuous promotion of qualitative level, increasing product variety, efforts to meet customers' inquiries, and improving customer satisfaction with fast response to market changes are the main goals of the TSF team.

There are three types of Alkyd resins:

- 1) Long Oil Alkyd Resins
- 2) Medium Oil Alkyd Resins
- 3) Short Oil Alkyd Resins
